

## NATIONAL MARITIME SAFETY AUTHORITY

### Expression of Interest (EOI) for the Supply, Delivery, Installation, Integration and Commissioning of six (6) Marine VHF Digital Selective Calling System

The National Maritime Safety Authority (NMSA) is the State entity responsible for developing, promoting, monitoring and maintaining maritime safety standard in Papua New Guinea.

NMSA hereby invites expression of interests from qualified and experienced telecommunication engineering firms in carrying out installation of six (6) remote controlled marine VHF Digital Selective Calling System. The six radios are to be installed at six selected maritime provincial ports. The DSC System is to be linked back through fit-for-purpose network to the central Coastal Radio Station in Port Moresby.

The purpose of this request for interest (EOI) is to identify interested communication companies / firm for the supply all materials, delivery, installation, integration, testing and commission of a complete marine VHF Digital Selective Calling System network for NMSA.

The detailed Terms of Reference (TOR) can be downloaded from the NMSA website at [www.nmsa.gov.pg](http://www.nmsa.gov.pg). For further enquiries please contact the Senior Radio Inspector, Mr. Paul Ginis on 3054 661 or email: [pginis@nmsa.gov.pg](mailto:pginis@nmsa.gov.pg)

All proposals should be addressed to:

The Senior Radio Inspector - GMDSS Project  
National Maritime Safety Authority  
P.O. Box 668, Port Moresby, NCD  
Level 2, Pacific MMI Building  
Port Moresby

The Deadline for the submission of EOI's is set at 5.00pm 05th of October 2017.
